

Circumcisions Billing

Circumcisions are considered elective surgery. Medicaid insurance and most other insurance companies **may not cover** this procedure. If your insurance policy **does cover** circumcisions, it is your responsibility to contact the billing department at InterMed, give them your baby's name and policy number so this procedure may be billed in a timely matter.

If your insurance **does not cover** circumcisions, and you would like to have this procedure done before leaving the hospital, **you must have paid this fee in full**. You may pay small payments throughout your pregnancy at the time of your appointments, and we will put this as a credit on your account. Please inform the front office you are paying on the circumcision so we will credit your account appropriately. **The cost of this procedure is \$429.00.**

All of our billing is done from our InterMed office at Foden Road in South Portland. If you would like to make a payment plan please contact our billing department at Foden Road. Their phone number is 207-828-0361.

****Please be sure to check with your insurance company on coverage and prior authorization requirements***
